

Thank You Letter

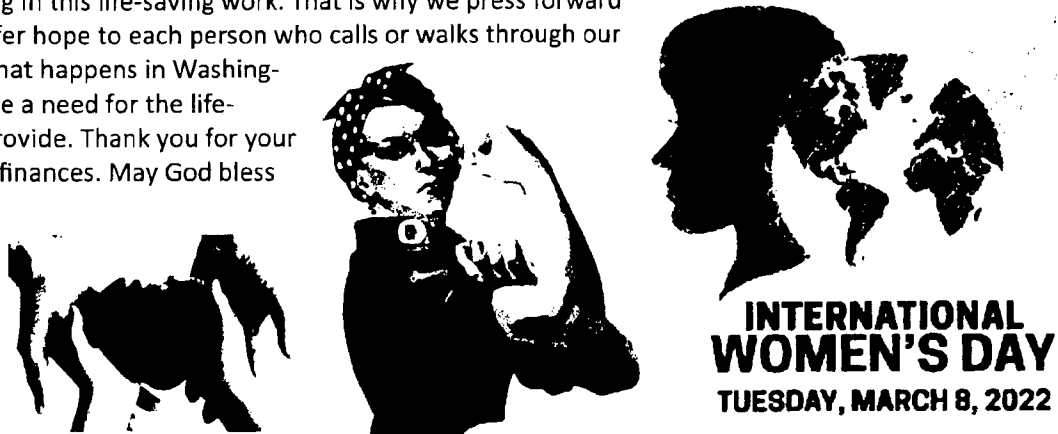

Thank You to Our Donors

During the month of March, we observed International Women's Day This holiday which was first observed over 100 years ago - celebrates the accomplishments of women. Of course, this can be twisted for various political motives, but at Heartbeat we value women and want to encourage them and empower them to make life-affirming decisions about their unplanned pregnancies.

It's remarkable that since our doors opened in 1985, hundreds of mothers have felt empowered to choose parenting or adoption for their children. This is certainly liberating! Their decision to choose life has a ripple effect in the community and we celebrate when we are able to follow up with some of those women and their children.

Thank you for joining in this life-saving work. That is why we press forward in our mission to offer hope to each person who calls or walks through our doors. No matter what happens in Washington, there will still be a need for the life-affirming care we provide. Thank you for your gifts of prayers and finances. May God bless you abundantly!

Sincerely in Christ,
Susan Spriggle
