Dear Niemons Independent Church,

We have made it through an unprecedented summer of ministry! Praise God for zero diagnoses of COVID-19 at any of our camps, worldwide, for those who were open for at least part of the summer months. As we are discovering with our camping ministries and the ongoing struggle with COVID-19, *all* our evangelistic programs need to shift to keep up with the ever-changing global circumstances.

Online meetings continue, including *In Step with the Master Teacher* training and discipleship classes. Churches have split their meeting times – even in Ukraine they have gone to two services in most BCM churches. Timothy, one of our missionaries there, says, “Ukraine was shut down for four months, no public transportation, no churches, only grocery stores. We were able to have a camp week at the sea with the orphans, over 100 kids, mostly non-Christian, from the war zone and broken families. Please pray for our team, and for peace in Ukraine!”

BCM Peru continues to produce Sunday school and Bible club videos which are available online, and broadcast on public television in-country. A few camps are pursuing fall “Day Camp” options, where children who need to do “cyber school” can come to camp, get help with schoolwork, and enjoy some camp activities.

The virus has proven that truly nothing stops the Word of God from going forth! In all our activities we look for opportunities to share the hope of the Gospel of Christ with those who have yet to fully receive it. We stand amazed at God’s continued provision of creativity and new avenues for evangelism, even in these unprecedented times. Thank you for your continued prayers for all BCM ministries during the fall months.

Your gift of \$200.00 received on 9/2/2020 is appreciated.
